

The Golden Crystalline DNA

Become the master of your own life

In this research project, the impact of the "new" DNA is being researched and documented.

Because the DNA of the origin family is stored in all cells, the information of the last seven generations is stored in the DNA. This information affects life and the family structure throughout the generations.

With the activation of the Golden Crystalline DNA in the pineal gland, the cells increasingly recover their soul's message.

This means exiting the destiny of previous generations.

The Golden Crystalline DNA is a beautiful manifesto now being made available to people so that they can experience their life to its fullest again.

The transfer of the Golden Crystalline DNA takes place over approximately 7 hours. The pineal gland is purified three times, and the GCDNA is activated. Between each activation, the body needs 3 hours for integration.

The event dates are always up to date at www.annrai.at/en/termine/. Seminars take place in Austria, Switzerland, Germany, and possibly in other places on this beautiful planet, if desired, in your country.

Accommodation and food: Prices vary depending on the location

Seminar price: 288 euros

Registration: ruth@annrai.at

(The number of participants is limited to 7 people.)
